

SUN SAFETY POLICY

As part of our curriculum children will be taking part in outdoor activities during the summer months, this will mean exposure to the sun.

To protect the children **they must always bring a hat** (preferably legionnaire type) and wear **tops, dresses etc with sleeves**. If they are not adequately covered they will **not** be allowed to play outside. This is to ensure that the children are protected from the sun as part of the Safeguarding children policy.

They must have sun cream protection according to their individual needs. We advise a high factor 30 or above.

Please apply suitable sun cream before coming to Preschool and if permission has been given, we will top up throughout the day.

Please note we do not allow the children to wear crocs or flip flops at Preschool as we feel they are not suitable for outdoor play
